

ICB Albania opens 6th Branch in Fier.

Fier Branch, Albania

ICB Albania opened its 6th branch at Fier in southwest Albania on 23rd June 2008.

Fier is 110km from the capital city of Tirana and marks the bank's first branch to be located outside of Tirana.

ICB Albania intends to further expand its presence and services to include the industrial districts, commercial enterprises and tourism-related businesses from the city of Fier and its surrounding suburbs. Given its modern branch set-up and a cozy atmosphere within, this branch is ready to provide all its business clientele with a pleasant service-centric environment and warmth ambience to do their banking in.

Similar new branches are expected soon in other parts of Albania.
